Come's vacuum packed and boxed for extra convenience and ease. The SleepSoul Cloud mattress features two layers of foam and a luxurious quilted top for the ultimate in comfort. Enjoy a deep, restful sleep and wake up feeling refreshed for the day ahead.

What's better than a layer of foam? Two layers of foam!

We've sandwiched 2cm of memory foam between a layer of non-slip fabric and another layer of soft foam.

The memory foam is designed to let your body sink into the mattress, relieving pressure off your muscles and joints.

The soft foam distributes your weight across the mattress to keep you steady.

Plus, 800 individual pocket springs keep you stable and supported in any position.

Whether you sleep alone or with a partner, the SleepSoul Cloud mattress will prevent you from rolling around or off the bed.
